## **DETAILED ACTION**

### ***Continued Examination Under 37 CFR 1.114***

1. A request for continued examination under 37 CFR 1.114, including the fee set forth in 37 CFR 1.17(e), was filed in this application after allowance or after an Office action under *Ex Parte Quayle*, 25 USPQ 74, 453 O.G. 213 (Comm'r Pat. 1935). Since this application is eligible for continued examination under 37 CFR 1.114, and the fee set forth in 37 CFR 1.17(e) has been timely paid, prosecution in this application has been reopened pursuant to 37 CFR 1.114. Applicant's submission filed on 5 June 2007 has been entered.

### ***Reasons for Allowance***

2. Claims 1-20 are allowed.
3. The following is an examiner's statement of reasons for allowance: The prior art fails to disclose or suggest the device as claimed by applicant. In particular, the prior art fails to disclose the valve as claimed with a configuration that permits passage of fluid from inlet to chamber without passing through the biasing element, along with the other functions and limitations of the claims.

The best prior art of record, US 5,810,761 to Saens-Arollo, US 3,450,155 to Froehner, and US 4,787,886 to Cosman, all disclose valves with a housing, blocking member, valve seat, and a biasing element, but do not teach that the fluid being regulated by the valves does not pass through the biasing element during the valving operation.

US 5,535,740 to Baghaee-Rezaee discloses a pressure gauge with a bellows wherein the interior of the bellows does not communicate with the interior of the housing, but fails to teach or suggest any valve portions or valving operations.

EP 1 331 019 A2 and US 6,953,444 to Rosenberg disclose the apparatus as claimed, but are unavailable as prior art under 35 USC 102 (the prior by publication date, the latter is not a patent "to another"). The US patent does not present a double-patenting issue.

As such, the claimed configuration is not disclosed or suggested in the prior art.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
